WELCOME TO
TUEAN FAI

One For All, RPD challenge: Pakava Jumroen
The two most common causes for wildfires are lightning strikes and human activity.
3 million acres of forest

“People don’t understand how hard it is to explain to a two-year-old that they can’t play with their dolls, because they don’t exist anymore.”
A Fort McMurray wildfire victim
Most users will be those working in this field. This is due to the unattractive UI and the difficulty in using the application. Consequently, average people can't access and utilize it.

Base on people around me
Hello User, Today we detected 25 hotspots and the number raise 15%.
SAFE WAY
