SELECTED REFLECTIONS

Some general thoughts:

"Organizer's efforts to gather and share expertise among stakeholders on one platform is really appreciated."

"The sessions are not only for statisticians but also cater to wider audience."

On mapping of NSS business processes to identify priorities for change:

*"We use **Enterprise Architecture**."*

*"Launched an improved **platform with drop and grab data** feature across the country. Reports are standardized to minimize confusion."*

On most effective modernization tool and concept:

*"The use of **online-based** survey and census questionnaire. "*

*"The use of **data processing software (CSPro)** contributed in the efficient data management in our statistical undertakings."*
