Pacific 2024 VNR Clinic 23 Nov 2023, Suva

# SDG Progress Assessment: using data for evidence-based analysis for VNR

Arman Bidarbakhtnia, ESCAP bakhtnia@un.org

# What makes national progress assessment different?

# Global

- How is data shared between countries and the custodian agencies?
- How are questionnaire responses coordinated by the governments
- How are estimated data verified?

 $\boldsymbol{\sigma}$ 

Nation

### How do we go about selecting indicators for national SDG monitoring?

- What is the process and mechanism for creating a National SDG Framework?
- How to assess progress?

Building blocks for Tracking National SDG Progress

Indicator Identification & Selection

target setting

Methodology & progress analysis

National Data Flows

(Coordination, Collection, Validation)

Dissemination and communication of Results

- Identify what's applicable to our country
- Supplement global indicators with national proxies

Indicator Identification & Selection

target setting

Methodology & progress analysis

National Data Flows

(Coordination, Collection, Validation)

Dissemination and communication of Results

Indicator Identification & Selection target setting

Methodology & progress analysis

National Data Flows

(Coordination, Collection, Validation)

Dissemination and communication of Results

 Establish an effective mechanism to share and assure quality of data on national SDG indicators to be used for assessing progress

Indicator Identification & Selection target setting

Methodology & progress analysis

#### National Data Flows

(Coordination, Collection, Validation)

Dissemination and communication of Results

- Apply statistically sound methods for progress assessment.
- The choice of methods should be appropriate for the purpose of progress assessment.

Indicator Identification & Selection target setting

Methodology & progress analysis

National Data Flows

(Coordination, Collection, Validation)

Dissemination and communication of Results

- Make SDG data and the progress assessment results available to decision makers and public.
- We must distinguish between data dissemination and data analysis & interpretation and communication of results

Indicator Identification & Selection target setting

Methodology & progress analysis

National Data Flows

(Coordination, Collection, Validation)

Dissemination and communication of Results

Use SDG progress results to investigate goals, targets or areas that country needs to prioritize for urgent actions

Indicator Identification & Selection target setting

Methodology & progress analysis

National Data Flows

(Coordination, Collection, Validation)

Dissemination and communication of Results

# How does ESCAP support countries?

## What is National SDG Tracker?

It is an <u>on-line analytical tool</u> for Governments

# It allows you to

- Add your national indicators to global SDG indicators
- 2. Edit/add new data points
- 3. Remove indicators if not relevant
- 4. Set national target values

https://data.unescap.org/

## What does National SDG Tracker do?

# It provides you with ...

#### **Snapshot**: How much progress made?

#### <u>Dashboard</u>: Will we achieve targets?

#### Mongolia 2023

MONGOLIA VOLUNTARY NATIONAL REVIEW 2023

IMPLEMENTATION OF THE SUSTAINABLE DEVELOPMENT GOALS

T REPUBLIC OF VIET NA

Viet Nam 2023 Brunei Darussalam 2023 Tajikistan 2023 Tuvalu 2022

#### National trend assessment

## VNR 2024 countries:

- Are you producing SDG progress dashboards for your VNR?
- If yes, where are you in the process?
- Do you require (or receive) support from development partners in data analysis for VNR?

## **Previous VNR countries:**

 How did VNR improve your overall SDG data coordination & dissemination?

# **THANK YOU**
