Sustainable Cities and Communities (GOAL11): Make Cities and Human Settlements Inclusive, Safe, Resilient, and Sustainable

6th ENEA SDG Forum 2022
8 September 2022

Presented by Dr. Bernadia Irawati Tjandradewi, UCLG ASPAC Secretary General
Growth of Urban Population
CREATING NEW OPPORTUNITIES

Human Resources
Agricultural
Food Products
Material
Energy

and many more opportunities
Directing to the condition to many cities where have vulnerable to climate change and natural disaster due their high concentration of people and location so building urban resilience is crucial to avoid human, social, and economic losses.
1 billion - 32%
The urban population live in slums

66%
The global population will reside in urban areas by 2050
Localising the SDGs Strategy for SDGs

11

- Integrated planning and management
- Transport and Mobility
- Reducing Environmental Impact
- Disaster Risk Reduction
- Implementing National Urban Policy
Establishing city-to-city cooperation as part of decentralisation form plays an essential part of SDGs localisation process, which opens up to new fields and opportunities in international action of the local and regional governments (LRGs). UCLG ASPAC carried out “Localise SDGs Project in Indonesia” and “LEAD (Local Empowerment, Advocacy, and Development) for SDGs Localisation in Pakistan”
ACTIVITIES

Training of Trainers
To empower and build the capacity of dedicated LRGs staff in terms of Decentralized Cooperation who will serve as focal points to promote and anchor decentralized cooperation and SDGs localisation.

Group Discussion
Participants shared experience that hopefully can give a participant a focus know-how tips and study case to achieve a purpose of sustainable development.

Policy Brief
Arranged a policy brief that can be applied by local governments in Indonesia.

Program Evaluation
Measuring the tangible outcomes of the project and capture lesson learned to benefit any future initiatives.
The distribution of provincial achievements has been spread across almost all provinces, with a total of 34 provinces.

Japan case: a person riding in the subway in a wheelchair.

Source: Seoul's Seongbuk District Office

- A city should provide equal opportunity for the mobility options for everyone, including those with a disability.
- A city should have continuous accessible paths of travel linking public transport, parking, retail, business, and entertainment areas.

Hong Kong Case: Inclusive cycling routes from Sha Tin to Tai Po

Key Take Aways

- Measure in a way that reflects those concerns of the quality of life enjoyed by present and future public interest
- Optimalisation approach to environmentally aware
- Ensuring access to safe and affordable housing, and upgrading slum settlements, lastly providing public transport
- Support sustainable urban planning and management in a way that is both participatory and inclusive.
Thank You.
