REGIONAL STATISTICS DEVELOPMENT GOVERNANCE

Committee/Meeting	Objectives (s)	TORS
1. Forum Economic Ministers Meeting (FEMM)	Provide strategic guidance and decision-making body in significant regional statistics development matters, including governance. It has the ability to push significant issues to Pacific Island leaders via the traditional PIFS process.	Nil
2. Heads of Planning and Statistics (HOPS) Meeting	Provide senior-level strategic oversight, guidance, recommendations and decisions on all statistical matters placed before it.	Yes
3. Pacific Statistics Standing Committee (PSSC)	Monitor implementation and progress of the TYPSS and other essential statics-related processes; make decision on operational matters and make recommendations to HOPS on strategic issues of importance for statistics development in the Pacific region. PSSC meet in years when there is no HOPS meeting.	Yes
4. Pacific Statistics Methods Board (PSMB)	A technical body with the role of reviewing technical proposals on methodologies, identifying areas requiring research to identify best practices and making appropriate decisions on technical matters or, in cases where it cannot make a final decision, make recommendations to PSSC and HOPS for further discussion and a decision.	Yes
5. Donor and Development Partners Group (DDPG) Meeting	Ensure that all relevant donors and development partners were provided with a means to better coordinate their action and resources and provide concrete input into statistic governance in the Pacific. It is not a decision making body but it can make recommendations to PSSC and HOPS on relevant statistical matters and issues.	Nil

17 Goals to Transform the Pacific

 🔍

This SDG Dashboard is the regional dissemination platform for the 22 Pacific Island Countries and Territories, and will enable monitoring of progress against the 2030 Agenda for Sustainable Development. It holds data on the 132 Pacific Sustainable Development Indicators selected by the region and endorsed by Forum Leaders in the Pacific Roadmap for Sustainable Development.

Data is being collated from a number of sources, including national household collections, civil registry data, education management information systems, health information systems, treasury papers, and published reports from countries and development partners.

Note:

- 1. All indicators presented in this dashboard reference the official United Nations SDG indicator list found [here](#). Any Pacific variations are mentioned along-side the respective indicators in this dashboard.
- 2. Pacific Sustainable Development Indicators presented in this dashboard can be downloaded [here](#).
- 3. SDGs in the Pacific Booklet can be downloaded [here](#).
