During its 8th session, the Committee on Statistics tasked its Bureau, with secretariat support, to review and improve supporting groups & communities of practice, aiming to streamline and enhance them to ensure that they continue to be fit for purpose and better suited to the complex world in which NSOs now operate.

This session will present the consultation paper outlining the proposed new structure for groups and communities that has been circulated for member States' feedback, and provide opportunities for participants to share feedback and ask questions.
