INDONESIA, Country Statement

Agenda ITEM NO (36) (Population and Social Statistics)

For Population and Social Statistics, Indonesia will support the implementation of the recommendation of the Technical Advisory Group (TAG) on Population & Social Statistics that all countries in the region have the capacity to produce the core set by 2020. To achieve this vision/goal it is a need a strong collaboration between NSS/NSOs and Regional/International bodies which focus on national capacity building's priorities rather than donor's own priorities. The collaboration should be more holistic, better integrated, avoid duplication and with the spirit of togetherness.

Speaker: SAIRI HASBULLAH
