

## **Pakistan Statement for Agenda item 5 (a) Statistical Training**

The capacity building is continuous process for any NSO. Almost every NSO has Statistical training centers for its employees capacity building. Pakistan Bureau of Statistics planned to established an international level institution for official statistics training and related subjects for local as well as other countries of the region. This construction of the center has been started in 2014 at Lahore and hopefully will be completed in 2018. Pakistan can offer to be a partner in coordination of statistical trainings.
